

MBNMS Permit Report
April 2016
Sanctuary Advisory Council Meeting

The National Permit Database used by ONMS staff to record, track and evaluate permit actions is being updated and some features, such as creating permit action summaries, are not functioning at this time. The summary contained in the following pages is for permit actions from 2015 to present and is unfortunately not as comprehensive (e.g. does not include summary) as it has been in the past.

If you are interested in learning more about a specific permit action, please contact:
