

Waiver 4 Criteria and Implementation

- Waiver #4: An alternate member has served three consecutive terms in one seat (i.e. terming out), applies for, and is competitively selected to serve as a primary member in the same seat for one additional term.
 - Process: The term-limited individual should apply for the primary position through the regular recruitment process. The application will then be reviewed by the preliminary review panel along with all other applications received and submitted to the superintendent. If the superintendent decides to select the termed-out alternate member for the primary position for the same seat, a memo requesting the waiver should be submitted along with the standard clearance package to the ONMS director for review and approval.
