>299 Foam Street  
>Monterey, CA 93940

>  
>Dear Mr. Douros:  
RE: Monterey Bay National Marine Sanctuary south

I am unable to attend the upcoming Sanctuary Advisory Council meeting. I would like my voice to become part of the record regarding the discussion of including the expansion of the sanctuary border south of Cambria to POINT SAL.

I am absolutely in favor of placing this discussion high on your priority list as I think it is of vital importance to the health of our oceans. Those who have been vocal up to now have not been representing the voice of this community and have been passing out much misinformation. The >majority are in favor of this expansion.

>  
Please make sure copies of this letter are given to the Council members to help them know our wishes to expand your sanctuary south.

>  
>Sincerely,  
William Denneen, Biologist  
Exec. Director of Friends of Point Sal  
PO#73, Nipomo, CA., 93444
