

**MBNMS Permit Report
For February 2015
Sanctuary Advisory Council meeting**

Unfortunately, the National Permit Database used by MBNMS staff to record, track & evaluate permit actions has been suffering from some technical challenges, and due to budget constraints has fallen into disrepair. The summary contained in the following pages is for permit actions from 2014 to present, and is unfortunately not as accurate (due to lack of sorting capabilities) as it has been in the past.

Should you be interested in a specific permit action, please contact:
