

MBNMS Permit Report
For June 2015
Sanctuary Advisory Council Meeting

Unfortunately, the National Permit Database used by MBNMS staff to record, track & evaluate permit actions has been suffering from some technical challenges, and due to budget constraints has fallen into disrepair. The summary contained in the following pages is for permit actions during 2015, and is unfortunately not as accurate (due to lack of sorting capabilities) as it has been in the past. Should you be interested in a specific permit action, please contact:
